

# DYROS 90

Brass connectors with 9 mm passage capacity\* for water, grease, air, oil etc. ....

- developed specifically for coolants in plastic tools

Today Dyros 90 can be found everywhere:

- on plastic moulds
- on compressed-air plants
- on oxygen and gas cylinders
- in operating rooms
- and in numerous other places

In short, Dyros can be found wherever small dimensions, reliability and safety are a must.

All connectors have built-in valves that are perfectly tight even at very low pressure.

A locking device is automatically released upon engagement, so that the connector can be operated by one hand.

## Dyros products are unimpeachable quality - down to the smallest detail

The Thread BSP corresponds to G1/4" - G3/8" - G1/2"

The connectors on these pages are also made without valve (OV).

Order e.g. with valve no. SLK 918  
Without valve order no. SLK 918OV

All connectors can also be delivered with coloured red and blue caps.

Order e.g. valve no. SLK 918R = red cap
